Leslie St. Spit Restoration

The Nature of Things - Accidental Wilderness (CBC)

<https://www.cbc.ca/natureofthings/episodes/accidental-wilderness-the-leslie-street-spit>

Accidental Wilderness , a new lovely publication about the origins and evolution of the Leslie Street Spit, by Walter Kehm, with photographs by Robert Burley, has been published.

The book consists of a series of essays about The Spit, with Burley's superb photos interspersed. We at Friends of the Spit volunteered two of the essays - _The Evolution of Advocacy_ and _Birds and Birding at The Spit_ - which have been incorporated into the book.
