

What to expect

- Just like last year, plants will come in Sun and Shade kits
- Two sizes: small kits have 7 plants; large kits have 10
- Plants have been pre-chosen to follow the 3x3x3 rule as much as possible
- You'll need your last name for picking up orders
- Suggested minimum donation for small kits is \$10, for large kits is \$15

What you'll get

- Descriptions of the plants in each kit
- Resources from our project partners (City of Toronto Biodiversity guides, Goldenrod information, Birds Canada resources, Grow Me Instead guides, etc.)
- Project Swallowtail signs – this year will be optional, as many of you might already have signs

PollinateTO 2022

- PollinateTO participants will have received information from Annemarie for their kits
- Each PollinateTO group will receive one kit, whichever size, for the conditions of your project
- If you would like more plants, you are welcome to order them through the order email I will send out (it will go to Annemarie, who will share it with you)
