

Planning for a Better New Year

This past year was very challenging but offered us new ways of being connected to each other and to other groups through on-line meetings and recordings. On-site field work was very limited but stewardship also continued with **activities at home** and through **Project Swallowtail**. We have a new **website** with a **summary of 2020** accomplishments and links to **other groups and recordings** containing a wide variety of gardening and stewardship topics so we don't need our own winter speaker series this year.

We have a large email list but limitations of only 8 participants per session meant that only Stewards who attended work sessions in 2019 were invited to them. If you did not receive an invite last year and would like to be invited to any on-site sessions when they occur this year please enter your name and email in this **form** and check the *Update* and *On-site sessions* boxes.

We are happy to have people on our list who just want to keep up with what we are doing but if you do not want to be on our list please ***Unsubscribe*** using the option at the bottom of this message. Please send any questions to stewards@highparknature.org
