

High Park Stewards Event Registration 2022

An online registration system is being piloted for both the High Park Stewards and the City of Toronto's Community Stewardship Program this year. To register for the High Park Stewards please visit **Better Impact Login - High Park Stewards**. Within 2 business days, your application will be approved and you can start signing up for events. You will not receive a notification once your application has been approved, so be sure to check back regularly within those 2 business days to see if your login has been activated.

Once you are registered, we suggest bookmarking the following link **MyImpactPage - Login**. Once your application is approved, this link will take you directly to the Opportunity Calendar where you will see a calendar with the available stewardship sessions. High Park Stewards field events will take place on the second and fourth Sunday of the month from May to November, excluding holiday weekends.

We will open four High Park Steward events at a time for sign up. Events will be listed by activity type – for example, all opened event dates for invasive species management will be listed under the invasive species tab, while opened dates for planting events will be listed under the planting tab. Please be considerate of sharing opportunities. It is recommended to sign up for no more than 2 events within each opened block of four.

Once you're signed up for an event, you will receive an email prior to your event day that will include the information you need to participate.

You can also access your calendar, add, and remove sessions from the My Impact app!

Apple: **itunes.apple.com**

Android: **play.google.com**

Volunteers must register for events in advance to participate.

Please contact Jaclyn.Scobie@toronto.ca if you have questions about registration, or if you require assistance.

Note: The Community Stewardship Program (CSP) also uses this registration program and their event listings can be seen on the Better Impact Opportunities Calendar. Though the same system is used, only High Park Stewards are able to sign up for the High Park Stewards events.
